EDUCATION

ST. JOSEPH COLLEGE OF ENGINEERING AND TECHNOLOGY

Bachelor of Engineering
2015 - 2019 | Thanjavur, India

SKILLS

LANGUAGES

Gosu
Core Java
XML

TOOLS & TECHNOLOGIES

Guidewire (version 8)
Advance Template Designer (ver-27)
Data Modeler (version 27)
SVN

METHODOLOGIES

Agile Methodology
Software Development Life Cycle
(SDLC)

OBJECTIVE

I am eager to take on a challenging role as a SmartComm and Guidewire developer, leveraging my expertise in SmartComm, Gosu programming, and Guidewire products. With 2 years of experience, I specialize in developing scalable and efficient insurance applications. My commitment lies in delivering high-quality solutions that not only meet client needs but also exceed expectations

EXPERIENCE

NEWDREAM DATA SYSTEMS | Junior Software Developer

Aug 2022 - Present | Tiruchirappalli, India

Guidewire PolicyCenter Configuration:

- Analysed business requirements and translated them into comprehensive data models, designing entity relationships, attributes, and data flows to ensure efficient data management and retrieval.
- Hands-on experience in creating and configuring custom events within the event-fired.
- Knowledge on messaging plugins request, transport and reply plugins.
- Basic knowledge of Page Configuration Files (PCF), including components like location and widget elements.
- Developed selectable, suggested, and required coverages tailored to various policy lines using Product Designer, ensuring compliance with business requirements.
- Synchronized custom form inference and form variable mappings with policy form patterns in XML, maintaining consistency across system tables.
- Creating System tables files using entities and product model
- Creating Question set for Policy Period, Policy line and Policy location
- Knowledge on Activity patterns for different patterns in product model

PC Development:

- Developed policy form patterns for individual forms, implementing custom form inference strategies to align with specific policy requirements.
- Created form variable mapping classes to efficiently extract and populate data from entities, ensuring seamless integration with GX models and XML generation for policy documents.
- Managed recipient contact information to maintain accurate and reliable communication channels across the policy lifecycle.

SmartComm:

- Developed and customized templates using SmartComm Advance Template Designer, aligning output with business requirements and maintaining brand consistency.
- Designed and implemented a Shared Content module to maintain uniformity across multiple templates, reducing redundancy and improving content management.
- Created XML data schemas and mapped them to business data objects, ensuring accurate and consistent data population within templates.
- Developed dynamic and static forms based on business needs, incorporating form usage rules, data mapping, and variable logic to meet diverse client requirements.

BESANT TECHNOLOGIES | Course Training

Apr 2022 – Jul 2022 | Chennai, India

- Completed a 4-month training program in Java programming and Oracle database management.

ACHIEVEMENTS

- Automated Policy transaction using Gosu scratchpad.
- Awarded for successfully completing an Intern Administration Application.
- Awarded for outstanding performance on the Guidewire project.
